DELL OPTIMIZER FOR PERFORMANCE AT LIGHTNING SPEED⁸

Dell Optimizer is our unique optimization software that uses built-in artificial intelligence and machine learning to learn how users interact with their system. Based on what it learns, it will work in the background – invisibly and on the user's behalf – to make meaningful adjustments, providing a more seamless end user experience.

END USER BENEFITS

- **Fewer interruptions** on conference calls with new network throughput optimization.
- **Intelligent Audio** reduces unexpected noise and enhances the quality of voice, allowing customers to stay off mute and work as if they're in the same room.
- **An improved user interface.**

IT ADMIN BENEFITS

- **Fewer IT tickets:** Dell Optimizer allows the end user to self-manage, ultimately cutting down IT man-hours and costs.
- **Dell Optimizer** is the first line of support.

ADVANCING SUSTAINABILITY

We've pioneered bio-based technologies in the production and packaging of our products, working closely with our suppliers to minimize our collective environmental impact at every step. The benefit of using bioplastics from trees in the lid of the 5000 Series⁹ is that it creates a lower footprint during manufacturing.
